His friends, Catalina and Eulogio, escaping their own circumstances, join him in the adventure. An ode to friendship Fernando, Catalina and Eulogio have grown together in a Madrid neighborhood close to the Encarnación convent. The Spanish Civil War has just ended and the young trio try to recover from the impact it had on their lives and those of their families. Fernando lives with his mother, Isabel, awaiting his father's liberation -incarcerated because of his Republican ideals-, hoping for an absolution that never arrives. Catalina lives on the same street. Her family has come to ruins during the Civil War and in order to confront their debts, her father plans to marry her to a man she despises. Eulogio is the one whose war losses are greatest. His father died in combat and he himself returned from war a cripple after a heroic act which saved Marvin's life, a young American who arrived

in Spain in 1936 to study literature, and when war broke, decided to stay and portray the pain of conflict in a celebrated poem anthology. The future's perspectives look grimmer each day for the three friends. They decide to unite their destinies and embark on a new life away from Madrid to save the little that they have left.

The Pope's Daughter-Dario Fo 2015-08-04

Lucrezia Borgia is one of the most vilified women in modern history. The daughter of a notorious pope, she was twice betrothed before the age of eleven and thrice married—one husband was forced to declare himself impotent and thereby unfit and another was murdered by Lucrezia's own brother, Cesar Borgia. She is cast in the role of murderess, temptress, incestuous lover, loose woman, femme fatale par excellence. But there are two sides to every story. Lucrezia Borgia is the only woman in history to have serve as the head of the Catholic Church. She successfully administered several of Renaissance Italy's most thriving cities, founded one of the world's first credit unions, and was a generous patron of the arts. She was mother to a prince and to a cardinal. She was a devoted wife to the Prince of Ferrara, and the lover of the poet Pietro Bembo. She was a child of the renaissance and, in many ways, the world's first modern woman. In this richly imagined novel, Nobel laureate Dario Fo reveals Lucrezia's humanity, her passion for life, her

compassion for others, and her skill at navigating around her family's evildoings. The Borgias are unrivalled for the range and magnitude of their political machinations and opportunism. Fo's brilliance rests in his rendering their story as a shocking mirror image of the uses and abuses of power in our own time. Lucrezia herself becomes a model for how to survive and rise above those abuses. Part *Wolf Hall*, part *House of Cards*, *The Pope's Daughter* will appeal to readers of historical fiction and of contemporary fiction alike and will delight anyone fascinated by Renaissance Italy.

The Power of Regret-Daniel H. Pink 2022-02-01

"The world needs this book." —Brené Brown, Ph.D., New York Times bestselling author of *Dare to Lead* and *Atlas of the Heart* An instant New York Times bestseller As featured in *The Wall Street Journal* and *The Washington Post* Named a Must Read of 2022 by *Forbes*, *Newsweek*, and *Goodreads* From the #1 New York Times–bestselling author of *When and Drive*, a new book about the transforming power of our most misunderstood yet potentially most valuable emotion: regret. Everybody has regrets, Daniel H. Pink explains in *The Power of Regret*. They're a universal and healthy part of being human. And understanding how regret works can help us make smarter decisions, perform better at work and school, and bring greater meaning to our lives. Drawing on research in social psychology, neuroscience, and biology, Pink debunks the myth of the "no regrets" philosophy of life. And using the largest sampling of American attitudes about regret ever conducted as well as his own World Regret Survey—which has collected regrets from more than 15,000 people in 105 countries—he lays out the four core regrets that each of us has. These deep regrets offer compelling insights into how we live and how we can find a better path forward. As he did in his bestsellers *Drive*, *When*, and *A Whole New Mind*, Pink lays out a dynamic new way of thinking about regret and frames his ideas in ways that are clear, accessible,

and pragmatic. Packed with true stories of people's regrets as well as practical takeaways for reimagining regret as a positive force, *The Power of Regret* shows how we can live richer, more engaged lives.

The Mysterious Ship-H. P. Lovecraft 2014-12-13

"The Mysterious Ship" is a story story by American horror fiction writer H. P. Lovecraft. Howard Phillips Lovecraft (August 20, 1890 - March 15, 1937) - known as H.P. Lovecraft - was an American author who achieved posthumous fame through his influential works of horror fiction. Virtually unknown and only published in pulp magazines before he died in poverty, he is now regarded as one of the most significant 20th-century authors in his genre. Lovecraft was born in Providence, Rhode Island, where he spent most of his life. His father was confined to a mental institution when Lovecraft was three years old. His grandfather, a wealthy businessman, enjoyed storytelling and was an early influence. Intellectually precocious but sensitive, Lovecraft began composing

rudimentary horror tales by the age of eight, but suffered from overwhelming feelings of anxiety. He encountered problems with classmates in school, and was kept at home by his highly strung and overbearing mother for illnesses that may have been psychosomatic. In high school, Lovecraft was able to better connect with his peers and form friendships. He also involved neighborhood children in elaborate make-believe projects, only regretfully ceasing the activity at seventeen years old. Despite leaving school in 1908 without graduating - he found mathematics particularly difficult - Lovecraft had developed a formidable knowledge of his favored subjects, such as history, linguistics, chemistry, and astronomy. Although he seems to have had some social life, attending meetings of a club for local young men, Lovecraft, in early adulthood, was established in a reclusive 'nightbird' lifestyle without occupation or pursuit of romantic adventures. In 1913 his conduct of a long running controversy in the letters page of a story magazine led to his being invited to participate in an amateur journalism association. Encouraged, he started circulating his stories; he was 31 at the time of his first publication in a professional magazine. Lovecraft contracted a marriage to an older woman he had met at an association conference. By age 34, he was a regular contributor to newly founded *Weird Tales* magazine; he turned down an offer of the editorship. Lovecraft returned to Providence from New York in 1926, and over the next nine months he produced some of his most celebrated tales including "The Call of Cthulhu," canonical to the Cthulhu Mythos. Never able to support himself from earnings as author and editor, Lovecraft saw commercial success increasingly elude him in this latter period, partly because he lacked the confidence and drive to promote himself. He subsisted in progressively straitened circumstances in his last years; an inheritance was completely spent by the time he died at the age of 46.

The Fractured Republic-Yuval Levin
2016-05-24

21st century America is anxious and discontented. Our economy is sluggish, our culture is always at war with itself, our governing institutions are frequently paralyzed, and our politics seems incapable of rising to these challenges. The resulting frustration runs broad and deep: It fans populist anger while driving elites to despair. It persuades progressives that America is stuck while convincing conservatives that we are rushing in the wrong direction. It manages to make people on all sides of most issues feel as though

they are under siege simultaneously. Why should this be? And how can we overcome our frustration? In this groundbreaking exploration of America's 21st-century challenges, Yuval Levin argues that our anxiety is rooted in a failure of diagnosis. Our politics is drenched in nostalgia, with Democrats always living in 1965 and Republicans in 1981, and is therefore blind to the profound transformations of the last half century. America's midcentury order was dominated by large, interconnected institutions: big government, big business, big labor, big media, big universities, mass culture. But in every arena of our national life—or at least every arena except government, for now—we have witnessed the centrifugal forces of diffusion, diversity, individualism, and decentralization pulling these large institutions apart. These forces have liberated many Americans from oppressive social constraints but also estranged many from families, communities, work, and faith. They have set loose a profusion of options in every part of life but also unraveled the social order and economic security of an earlier era. They have loosened the reins of cultural conformity but also sharpened our differences and weakened the roots of mutual trust. Building on our strengths while healing our wounds, Levin argues, would require a politics better adapted to the society we have become—a politics rooted in neither an ethic of centralized power nor a spirit of radical individualism but a regard for the potential of a modernized subsidiarity and civil society.

Gangland New York-Anthony M. DeStefano 2015-07-01

Get a taste of New York's underworld by seeing where mobsters lived, worked, ate, played, and died. From the Bowery Boys and the Five Points Gang through the rise of the Jewish "Kosher Nostra" and the ascendance of the Italian Mafia, mobsters have played a major role in the city's history, lurking just around the corner or inside that nondescript

building. Bill “the Butcher” Poole, Paul Kelly, Monk Eastman, “Lucky” Luciano, Carlo Gambino, Meyer Lansky, Mickey Spillane, John Gotti—each held sway over New York neighborhoods that nurtured them and gave them power. As families and factions fought for control, the city became a backdrop for crime scenes, the rackets spreading after World War II to docks, airports, food markets, and garment districts. The streets of Brooklyn, swamps of Staten Island, and vacant lots near LaGuardia Airport hosted assassinations and hasty burials for the unlucky. The bloodlettings, arrests, and trials became front-page fodder for tabloids that thrived on covering Mulberry Street. Chinese, Russian, and Greek mobsters rose to prominence and wrought bloody havoc as well. Each of the book’s five sections—one for each borough—traces criminal activities and area exploits from the nineteenth century to now. Everyone knows about Umberto’s Clam House in Little Italy, but now you can find Scarpato’s restaurant in Coney Island where Joe Masseria was killed by henchmen of Salvatore Maranzano, who in turn died in a Park Avenue office building at the hands of “Lucky” Luciano a few months later. From the Bronx to Brighton Beach, from New Springville to Ozone Park, here is a comprehensive, on-the-ground guide to mob life in the Rotten Apple.

Secrets of the Conclaves-Rita Monaldi
2013-04-04

Written in the year 1700, when the demise of Pope Innocent XII was imminent, and dedicated to his friend and employer Louis XIV, *The Secrets of the Conclaves* is a mine of information concerning popes, conclaves and cardinals. A little masterpiece of cynicism and irony, illuminated by Abbot Atto Melani's historical memory and his unscrupulous defence of *raison d'état*, this remarkable document is an insider's guide to the machinations of the papal election. As told by Melani, the pitfalls in the conclave are largely invisible: personal hatreds, ambushes, vendettas, colossal errors and tragic misunderstandings follow at every

turn. In a fractious world in which gangs like the Flying Squad or the Zealots are at each other's throats, everything and everyone is to be mistrusted. It goes without saying that the ways and means employed to triumph in a conclave involve the darker arts; but they are the selfsame techniques that set Melani on his way to success: adulation, deception, corruption and, above all, espionage. The original document was discovered in the archive of the Library of the Senate in Paris by authors Rita Monaldi and Francesco Sorti. Monaldi and Sorti have celebrated the adventures of Atto Melani in a series of bestselling historical novels including *Imprimatur*, *Secretum* and *Veritas*.
